

ITIOT2021: 2021 2nd International Conference on Information Technology and Internet of Things

Chengdu, China | April 23-26, 2021|www.itiot.net

CALL FOR PAPERS

2021 2nd International Conference on Information Technology and Internet of Things will be held in **Chengdu, China** on **April 23-26, 2021**. With IT & IoT ecosystem changing rapidly and the marketplace is moving fast, ITIOT aims to bring together researchers, engineers, academics as well as industrial professionals to discuss the latest developments, share ideas and explore new opportunities in the marketplace throughout the year. The organizing committee invites original contributions as well as presentations about IT & IoT research done and reported by eminent researchers on the planet.

PROCEEDINGS

Accepted papers will be included in the conference proceedings, which are to be submitted for index by **Ei Compendex, Scopus, IET** etc. major databases.

TOPICS

#Information Technology

•Artificial Intelligence	•Data Analytics and Big Data
•Computer Network	•E-Commerce Risk Management
•Distributed Systems	•Internet of Things, Data Mining
•Machine Learning	•Natural Language Processing
•Mobile Computing	•Signal Detection and Processing
•Recommender system	•Software Engineering
•Cloud Computing in E-Commerce Scenarios	
•Visualization and Computer Graphic	
•Image Processing and Multimedia Technology	
•Intelligent Information Processing	
•Information System Integration and Decision Support	
•Service Oriented E-Commerce and Business Processes	

#IoT Topics:

• Smart Manufacturing	• Critical and URLLC IoT
• Smart Transportation	• Massive connectivity in IoT
• 6G-enabled IoT	•IoT short range communications
• IoT low power devices	• Blockchain solutions for IoT
• Smart Health	• IoT sensors and actuators
• Real case deployment scenarios and results	
• Optimization of data traffic and latencies	
• IoT security of smart sustainable cities	
• Software defined networking solutions for IoT	
• IoT architecture with 5G and beyond networks	
• Cooperative communication techniques for IoT	
• IoT System Modeling and Analysis—Performance	
• Energy efficiency and wirelessly powered IoT	
• Tools and technologies for IoT services

COMMITTEE

➤ Conference Chair

Jie Li, Shanghai Jiao Tong University, China

➤ Steering Committee

Chen Wei, Fudan University, China

Jang Ju Wook, Sogang University, South Korea

➤ Program Chairs

Yang Xiao, IEEE Fellow & IET Fellow, The University of Alabama, USA

Xiaodong Liu, Edinburgh Napier University, UK

Meelis Kitsing, Estonian Business School, Estonia

KEY DATES

Submission Deadline	Notification Date	Registration Deadline
Nov. 11, 2020	Nov. 30, 2020	Dec. 15, 2020

SUBMISSION

Online Submission Link
